SCLPR

The SCLPR range is fully compatible with the MWS product range allowing it to integrate seamlessly into any wet processing plant. The SCLPR can be used in a range of applications to screen off any oversize or heavy clay bound materials prior to the washing process. This helps improve the wash plant efficiency and increase life of the plant and its wear components.

KEY FEATURES

- 12 x 4.5m heavy duty high energy 2 bearing screen box
- Fully electric machine.
- Direct feed Hardox® lined hopper
- Fixed access walkways
- 2 or 3 product configurations
- Variable speed control on feed conveyor
- Containerised transport

The MWS SCLPR smart solutions are designed to:

- Increase productivity
- Improve quality – using proven technology to deliver consistent results
- Drive sustainability – saving energy and consumables while reducing waste
- Reduce operating costs – with solutions focused on a low total cost of ownership
- Maximise efficiencies – through tailored technology that meets exact site requirements.
